

Mazen Hussam

Front-End Engineer

SUMMARY

Passionate Front-End developer with a strong experience in HTML, CSS, JavaScript, ReactJS, NodeJS and responsive web design. Skilled in building dynamic, user-focused web applications and solving complex problems. Motivated by continuous learning, collaborative team work, and delivering scalable and efficient software solutions backed with 4 years of experience in solving problems and focusing on details.

EDUCATION

- ALX AI Career Essentials – Aug 2024
- Web Development course by Appbrewery - currently learning
- Cairo University, Bachelor's Degree, Business -2020

PROJECTS

E-Commerce Website using React

Developed a fully functional, responsive e-commerce web application using React and Vite, implementing core e-commerce features including product catalog, shopping cart, user authentication, and checkout flow.

Interactive JavaScript Games (Dice, Drum and Simon Games)

Designed and implemented engaging web-based games utilizing JavaScript, HTML, and CSS to create dynamic user experiences, showcasing understanding of DOM manipulation, event handling, and conditional logic.

Personal Blog Website

Built a simple, elegant blog using Node.js, Express, EJS, and Tailwind CSS, with image uploads and a contact form via Web3Forms — running entirely without a database.

Address: Cairo, Egypt.
